

# SPONSOR A BEEHIVE

## ABOUT US

We are professional, passionate beekeepers and content creators who are dedicated to the plight of the great British honeybee.

Why are we so passionate about bees? While to most people they are fuzzy flying insects we see darting between flowers, bees are actually so much more than this, and have a hugely important part to play in maintaining our precious planet. Bees are vital to both pollinate the food we need to survive as well as many of the trees and flowers that provide essential habitats for wildlife.

The Honeybee Man Ltd helps organisations like yours create a positive impact on your local environment through our sponsored beehive scheme. We offer businesses a bespoke solution to hitting their ESG and CSR goals in a unique and tangible way all while helping rebuild the UK honeybee population.

# SPONSOR A HIVE AT OUR HERTFORDSHIRE APIARY

**No space? No problem. Make a real  
environmental impact – off-site.**

For organisations without suitable space for on-site hives, our Sponsored Hive Programme offers a powerful, low-effort way to support biodiversity and sustainability while still reaping all the brand, employee, and CSR benefits.

## WHAT'S INCLUDED WHEN YOU SPONSOR A HIVE:

### A Dedicated, Branded Hive

- One fully managed beehive at our beautiful rural apiary in Hertfordshire
- Customised branding with your company logo displayed on the hive
- Managed by expert beekeepers with the highest welfare and ecological standards.

### Premium Content Pack

- Professionally shot photographs of your hive, your company branding, and our beekeepers in action
- Storytelling assets to use across your website, social media, internal comms, or ESG reports.

### A Sweet Return

- At the end of the season, you'll receive the full honey harvest from your sponsored hive – beautifully jarred and available with branded labels
- Ideal for employee gifts, client hampers, events, or sustainable PR campaigns.

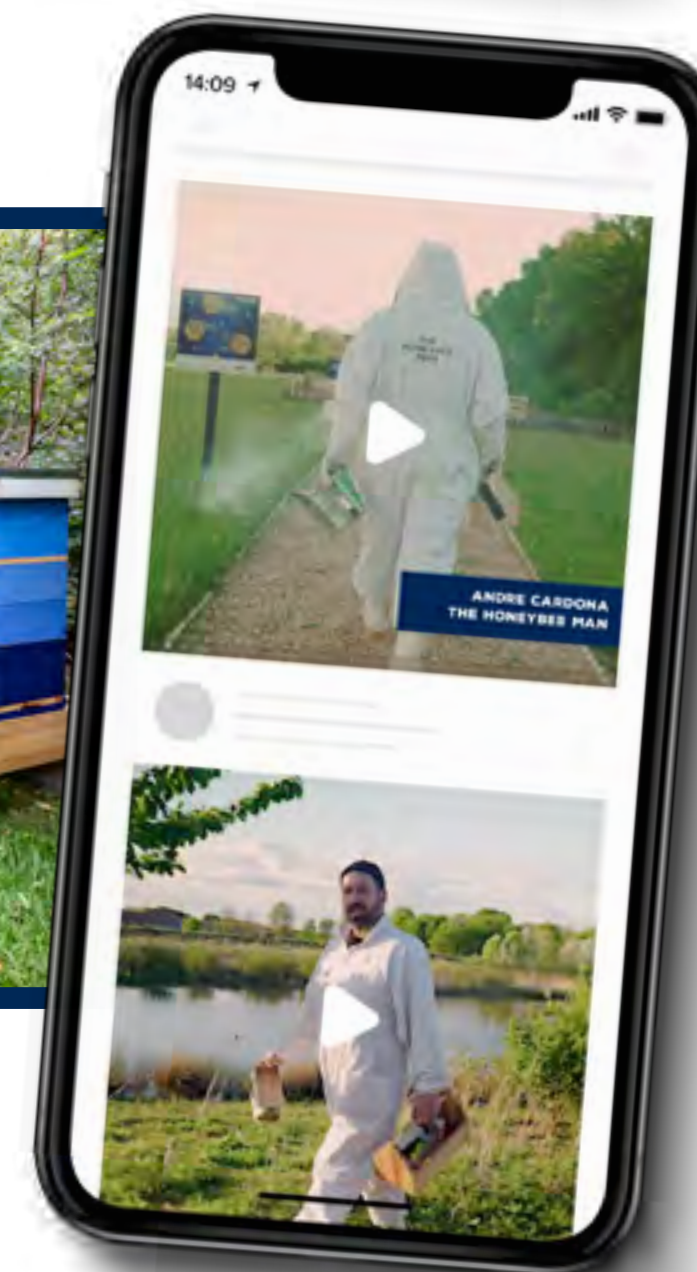

### Why Sponsor a Hive?

- Contribute meaningfully to pollinator conservation
- Align with sustainability and biodiversity commitments (including BNG or ESG goals)
- Generate powerful brand stories and stakeholder engagement opportunities
- Enjoy the benefits of beekeeping without the logistics of on-site hosting.

# WHY NOT SHOUT ABOUT IT?

We can support your PR and marketing teams with unique, engaging content to help you really shout about your commitment to help save the British honeybee. From newsletters and professional photography to video content and literature we'll help you get the word out!

"With the work Gazeley have done here, I've seen foxes, kites and even deer sunning themselves within the reserve, all over the last 18 months. Gazeley's work with the Planet Mark and The Eden Project help stress the importance of carbon footprint reduction."

Biodiversity is the backdrop to life on Earth, but it is under threat.

It is vital to preserve our precious ecosystem, because by protecting biodiversity, we protect our own future and that of the planet we share with millions of other species.

Celebrating World Bee Day with a Buzz! Join us at the MRC Laboratory of Molecular Biology (LMB) for a special NEB exhibition on World Bee Day! Let's catch the buzz together and celebrate the tiny creatures that make a big impact on the biodiversity of our planet.

**The Honeybee Man Ltd**

Great afternoon with Josh from Scania UK HQ last Friday checking out their apiary. We did a full hive inspection on all four hives and removed a fullframe of capped honey which we delivered to the on-site catering...
